

# Little People Big World Academy

Little People Big World Academy is proudly owned by the Johnson family. We are the proud parents of four beautiful children. Aside from the day to day opportunities to prove ourselves as qualified and capable business owners of a childcare center. Our military background , past work experiences and education backs our qualification to successfully operate a childcare center.

# Little People Big World Academy

LPBWA is a learning environment. Teachers introduce letters, colors, numbers, shapes and many other concepts on a weekly basis. All lesson plans are completed and implemented on an age appropriate level. All staff is properly trained according to each age level. Staff receives the best training to help assure they are utilizing the most current classroom techniques. At LPBWA we aim to put parents minds at ease as we attempt to not only meet but exceed all of their expectations of superior childcare.

## **The Director:**

The Director of our facility has received her Early Childhood Education Degree as well as her Bachelors in Business Management. She has worked as a pre-k teacher in a private institution for four years which aides her in using effective educational tools in each classroom. Her previous experience as a Director of a child care center is also an asset to being with Little People Big World Academy. She is also, certified child care instructor for South Carolina Department of Social Services. Tending to both educational and emotional needs of children and parents is one of LPBWA's top priorities.

## **Our Classrooms**

Your baby's first year of life is an amazing time, filled with discovery and enormous growth. We'll also stimulate your baby's cognitive, emotional and physical development. We will work closely with each family to develop individualized feeding, playing and sleeping schedules that are suitable for you and your child's needs

Your toddler is asserting their inde-

pendence in new ways every day. It's exciting, rewarding and challenging to watch. This stage of a child's development is one of curiosity and exploration. We will respond to the growing curiosity and exploration your toddler is experiencing with fun learning activities and creative playtime.

Assessments are completed on each student in our Busy Bees, Happy Hoppers and Bookworms classes twice a year. These assessments are done to aide us in deciding which areas each student is strong in as well as letting us know what areas we may need to focus more on. Parent/Teacher conferences are conducted following each assessment.
